PROFESSIONAL SUMMARY

A motivated AI Full Stack Developer with 1 year and 5 months of professional experience specializing in building intelligent and scalable web applications. Proficient in developing and integrating Large Language Model (LLM) solutions using Python, creating dynamic and responsive front-end applications with Angular, and building robust backend APIs. Experienced in leading front-end development, component design, API integration, Angular version upgrades, and integrating complex systems including custom Video SDK solutions. Passionate about leveraging AI and modern web technologies to deliver innovative, efficient, and user-centric applications.

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, HTML, SASS.

Frontend: Angular (v15–21), RxJS, TypeScript, HTML, SASS.

Backend: Spring Boot, FastAPI.

Web Dev Tools: VScode, Postman, IntelliJ, Git, Docker, Version-Control.

AI: LLM Integration, AI Workflows.

Cloud/Databases: MongoDB, Relational Database (MySQL)

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Object Oriented Programming, Database Management System, Software Engineering.

Areas of Interest: Web Design and Development, Cloud Computing.

Concepts: REST APIs, RBAC, JWT Authentication, WebSockets, Agile, Performance Optimization.

PROFESSIONAL EXPERIENCE

•Software Developer

Mar 2025 - Present

Ibytes Bits and Bots Pvt Ltd, Chennai

- Led frontend architecture for Angular applications, improving scalability and maintainability.
- Designed reusable component libraries, reducing code duplication by 40 percent.
- Improved application performance by 30 percent using lazy loading and optimized change detection.
- Coordinated with a 5-member development team, improving collaboration and increasing project delivery speed by 30 percent.
- Led Angular upgrade from v8+ to v15–21, improving performance and fixing security vulnerabilities.
- Developed and maintained backend APIs using Python and REST architecture for full-stack applications.
- Implemented CRUD operations along with PATCH methods for efficient data management and partial updates.
- Built and integrated scalable APIs ranging from basic form handling endpoints to complex business logic services.
- Created and managed AI tools and service layers for LLM-based applications and intelligent workflows.
- Integrated frontend applications with backend APIs and AI services to ensure seamless end-to-end functionality.

KEY ACHIEVEMENTS

- Improved application performance by 30 percent through optimization techniques
- Reduced code duplication by 40 percent by designing reusable components
- Successfully led Angular upgrades improving system performance and security

KEY PROJECTS

•Drilling AI (Aarya Senior Drilling Engineer) (Oil and Gas Platform)

Software Developer

- Built AI-driven platform for real-time drilling data visualization using Angular 21.
- Managed data through MongoDB database, ensuring reliability, scalability, and efficient data handling.
- Implemented WebSocket-based live data dashboards.
- Designed RBAC-based secure access control system.
- Improved performance using lazy loading and optimized state management.

•WDDI (Well Delivery Difficulty Index) (Oil and Gas Platform)

Software Developer

- Built scalable UI architecture using Angular 19, improving performance and maintainability.
- Managed data through MongoDB database, ensuring reliability, scalability, and efficient data handling.
- Delivered enterprise-grade application within 160-day deadline.
- Integrated frontend with backend APIs for seamless workflow.

EDUCATION

•Bachelor of Science in Computer Science	2021-24
Sri Muthukumaran Arts and Science College, Chennai	CGPA: 8
•Master of Science in Computer Science	2024-26
Anna University College, Chennai	CGPA: 8

CERTIFICATIONS

•Java Full Stack Development (Software Engineering) NIIT, Chennai	Jan 2023 - May 2024
•Mastering Postman: A Comprehensive API Testing Course Udemy	Online
•Database Application Development with Spring Boot and Angular Udemy	Online
•Introduction To Artificial Intelligence Infosys Springboard	Online
•Introduction To Data Science Infosys Springboard	Online
